THINK AGAIN

5 - 7 October 2012

http://ieee.daiict.ac.in/ifest2012/

About DA-IICT

DhirubhaiAmbani Institute of Information and Communication Technology was started with a vision to provide India with a research oriented institute that matches international standards and produces pioneers in the field of Information and Communication Technology.

Established in Gandhinagar, DA-IICT represents a perfect model for Wave – 4 educational innovation in Gujarat. With its primary focus on higher education through maximum participation from technology itself, DA-IICT has maintained its reputation of being one of the best engineering universities of India.

With a functional architecture, surrounded by fascinating flora and fauna, environment friendly design and a landscape planned in such a way that it conserves excess of natural resources - the campus itself is an example of what it wants to achieve – innovations through engineering.

DAIICTIANS SCALE THE HIMALAYAS!

About i-fest

i.fest has returned, with challenges more refreshing, with interactions more inspiring, with concepts more ingenious and most importantly, with a festival more fun.

i.fest 2012 is a celebration of the spirit of invention, imaginings and innovation. It aims to develop an excellent system of implementation and execution of the source of creativity which is the human intellect.

i.fest is an idea conceptualized by the IEEE Student Branch at DA-IICT. Our main aim is to bring the budding engineers from all over India to a common platform so that they can share their knowledge with fellow imagineers.

As the main target of the festival is students, we will hosting a series of technical and fun filled competitions which will offer the students not only an opportunity to learn but also to have a time of their life.
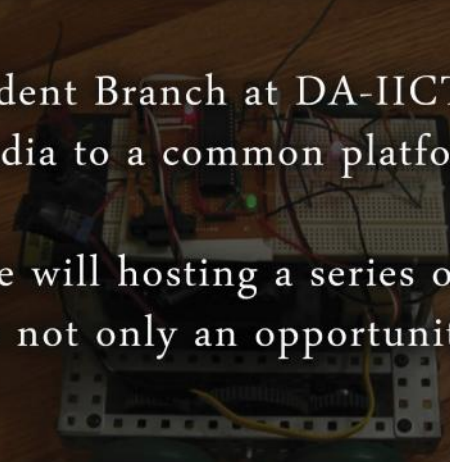

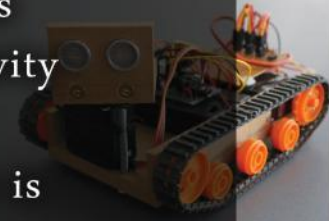

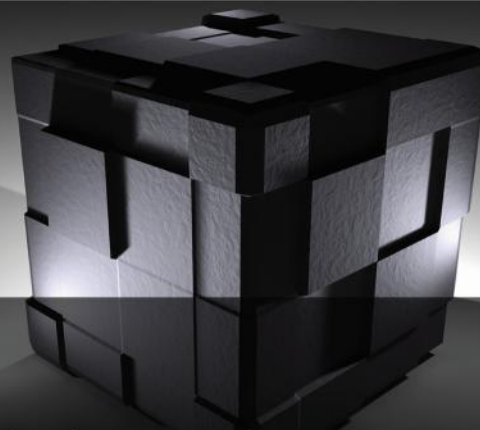

Events

i.bot
Ready to breathe life into machines and make a bot of your own? i.bot is providing you a wonderful opportunity to build an autonomous bot with some specific intelligence and dive into the world of robotics and also win loads of prizes!!!

i.electro
Are you the kind who always wanted to design digital circuits, but found the breadboard approach frustrating and time consuming? i.electro is about Computer Aided Design or the exciting area of Hardware description languages.

i.app
We invite all mobile application and web developers to participate in i.app, who are interested into developing Android apps which delight users.

i.papyrus
A new event provides the participants an opportunity to pen down their creative researches or interesting theories on any field of their choice. The idea is to appreciate the original work of future engineers and innovators.

Events

B2B
The B Plan competition,provide a platform to the young minds with entrepreneurship bent to come up with an Business-Plan and showcase their talent.

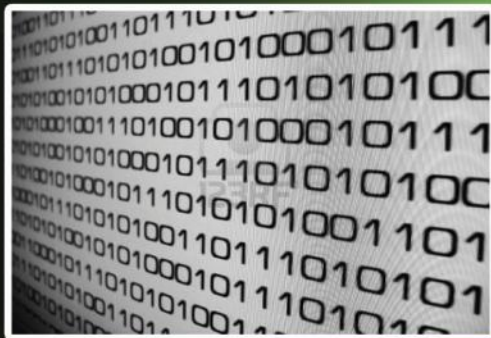

i.code
A programming challenge to test and enhance your cerebral capabilities. The i.code challenge has been daring the students to push the limits of their grey cells since its beginning. This year, we want you to shatter those limits.

i.funda
For all the techfreaks who claim mastery of the concepts of a basic undergraduate level, ifest 2012 brings to you an online event which tests the participant's fundes of basic sciences and mathematics.

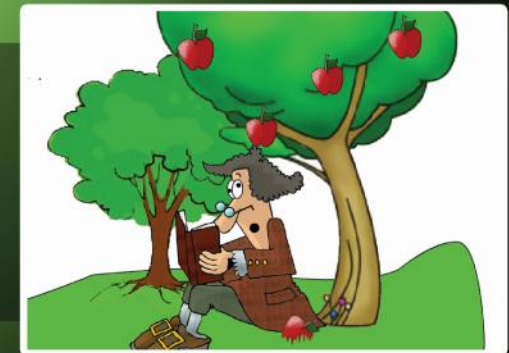

i.decipher
Do you think you have the instincts of a detective? Do you think you can Google out your way to any problem? Be the Sherlock Holmes, think different and win exiting prizes.

Events

i.vision

If you think differently and have a new and innovative idea, or a new way to solve a problem, this one is for you.Idea Presentation is a platform to present your idea or re-interpret an idea to give it a new sense in the present world.
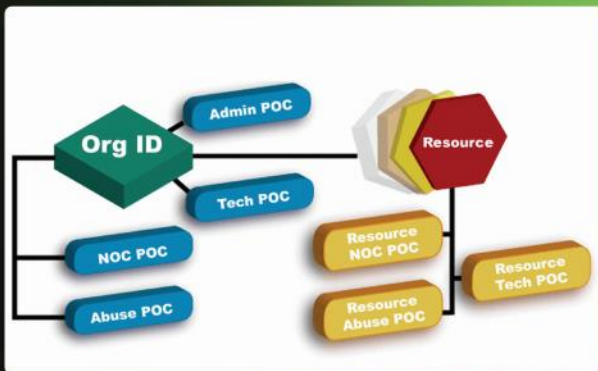

i.database

Design the database schema with all lot of tables, entities, relations, attributes and data as logical thinking. If you can think of the real time day to day needs, here you go ....

i.capture

Capture the best of your surroundings and get people to vote for your photo. One with maximum Facebook likes gets his way through.

i.design

Design the poster on the ifest 2012 theme "Think Again" and submit online.

Events

i.maze
Welcome to the i.maze, the world of mindbenders and brainteasers, a paradise for those with a penchant for tricky puzzles and puzzling tricks! Just think sideways and you might just nail it!

i.art
Do you have good drawing and sketching skills?
Then here is a platform to flaunt off your talent. i.art is a an 'on the spot' event where you should design a poster for the theme: "Think Again"

i.rubble
To create great inventions all you need is just some intellect and some junk. Come get your hands dirty engineer-style and unleash your creativity!!

i.debug
For circuit freaks, i.debug provide a simple circuit and expected output.
However something in the circuit isn't right. Identify the bug and win prizes.

THINK AGAIN !
