# Chancellor's Message

Arunachal University of Studies is here paving the way in making thousands of NER students' dreams come to reality. AUS is proud to say that the university is a home ground to the country's highest standards both academically and technically. In the rapidly changing education spectrum, the university has managed to garner name for itself through the implementation of an undeniable curriculum.

As a research-orientated university, AUS is dedicated to the excellent application of knowledge with a core commitment to excel in a comprehensive range of disciplines. Our values have always been - Respect, Freedom, Responsibility and Integrity. Maybe this is why despite all odds; we remained committed to our steadfast work to achieve success in due course of time.

Year 2020 shall be remembered as the year that COVID-2019 Pandemic tried fracturing the academic life of the educational institutions throughout the World. AUS during this period has done remarkable work to facilitate the students through its

preparedness for an online academic programme. AUS became the first University in the entire NER to have successfully conducted the online examinations and declared the results of students in the month of July 2020. The 5th Convocation of the University was excellently conducted in mixed mode i.e. Physical and Online on dated Dec 22, 2020 in presence of Hon'ble Union Cabinet Minister Dr. Mahendra Nath Pandey Ji. Such is the dedication of every AUS fraternity to keep the academic care of every student as our priority. Additionally, as the impact of the pandemic continues to be felt extensively in the country, I wish the health and wellbeing of our students, faculty, staffs, and stakeholders.

I would like to render my heartiest welcome to all the students joining the amazing world of Arunachal University of Studies. I wish that students manifest their mission in the most effective way possible and AUS is here to ensure it happens in all its glory. We still have a lot of hard work to do, so that our future holds great promises.

# Vice Chancellor's Message

I am pleased to be at the Arunachal University of Studies (AUS) – a premier educational institution in Namsai, Arunachal Pradesh – as its fourth Vice-Chancellor. The North-Eastern Region of the country, which includes Arunachal Pradesh and six other sister states and brother state of Sikkim, lies in the lap of the Himalayas and is beset with several daunting challenges. Yet there are many opportunities in the education and development sectors of the region. Education, indeed is a principal engine of economic prosperity everywhere. Inequalities in education may dramatically reduce the pool of talent, which societies can draw from. AUS was founded in 2012 to impart quality education in the remote NER of the country. Although the State of Arunachal Pradesh has advanced from extremely low literacy levels at the time of Independence, to 66.95% in 2011, it is still a long way to go as far as attaining high educational quality standards are concerned. Our motto at AUS is to attain excellence in education. Thanks to the foresight and dedication of the Founders who built this University and the hard work of the pioneering faculty and the previous Vice-Chancellors, we have reached this far.

The vision of a University as an inclusive community of scholars, international in character and a leader in higher education inspiring excellence and innovation, is the cornerstone of our strategy. As a community committed to the pursuit of knowledge, AUS would strive to provide student-centric education in a regional context and foster personal and intellectual growth to prepare students for productive

careers, meaningful lives, and responsible citizenship. Presently, AUS has eleven faculties, viz., Agricultural Sciences; Arts and Social Sciences; Commerce and Management; Design, Music and Fine Arts; Education, Special Education and Sports; Engineering and Technology; Medical Sciences; Legal studies; Library and Information Sciences; Science; and Skill Development and Vocational Studies. It shall be my endeavour to provide leadership to the organization and patronize scholarship in all domains of learning relevant to it. Given my strong background in the science of natural resource management and the long academic experiences I have had, I am confident that I would be able to envision and implement the programmes of AUS.

I am sure that AUS will emerge as a major centre of learning in the NER region of the country and will attain greater heights of excellence nationally and internationally in the days to come and attract more students from other parts of the world. The past year (2020) has been a trying one for all of us. The global pandemic created enormous challenges but also fast-tracked transitions to new approaches and technologies in education and other spheres of human endeavour that will serve us into the future.

AUS is like nowhere else. Yes, you have heard that right. Our university functioning are no less than a hidden gem in the wilderness of academia. This year we are proud in becoming the only University in the NER to have successfully conducted online examinations and declared the results on time despite the national lockdown. This talks a lot about the dedication of the University in governing the overall academic health of the students.

Additionally at AUS, we have a vibrant and cosmopolitan student congregation from all over the country studying here in becoming an educated and an entrepreneurial Indian citizen. Also, AUS was never about just finding oneself into the world of professionalism but also is a place where one makes friends to share like-minded paths. Over the years, we have witnessed friendship is the most holy form, making conversations and ideas like for the unity of the global community. Needless to say, "Friends for Life" begins within the four walls of AUS and there is nothing more extraordinary than this.

Lastly, by the vision of the founders, AUS has been the home ground for availing educational opportunity for students coming from all backgrounds irrespective of gender, region, religion, creed, caste, and socio-economic conditions. We are honoured and proud of graduating many students whose families shared no history of education. We believe that when education is a charity in itself; why not include all the ethnic and indigenous minorities to embrace the privilege of professional education.

As the years of success keeps adding into the golden chapters of AUS history, we constantly keep a motive of improving our academic and campus infrastructure that could rightly embody excellence in teaching and outreach engagements. Come, join Arunachal University of Studies, and volunteer to experience modern and holistic facilities in education in all subject areas you desire.

# FACULTY OF SKILL DEVELOPMENT & VOCATIONAL STUDIES

The Government of Arunachal Pradesh established Arunachal University of Studies as a state skill university for providing high quality education supplemented with industrial internship and professional training in various areas of studies. As per the reports of NSDC by 2021 around 6 Lakh people of the state will be unemployed. Complying with the legislative directives, the university established FSDVS in 2012. FSDVS is offering employment-centric, capacity building and training related Programme for skill & entrepreneurship development of the youth. FSDVS is also assisting the students of vocational education to transfer already earned formal/ in-formal/ vocational credits into the formal education system and vice-versa.

## National Skill Qualification Framework (NSQF)

FSDVS has adopted all levels of NSQF which was notified by the Ministry of Finance in 2013 for providing common reference framework for linking various vocational qualifications, setting common principles and guidelines for a nationally recognized qualification system & standards and providing course curriculum under competency-based framework that organizes all qualifications according to a series of levels of knowledge, skills and aptitude. NSQF is a quality assurance framework to integrate regular education with competency-based skill education for multiple pathways, horizontal as well as vertical, both with in classroom sessions and practical training and among vocational education & training, general education and technical education.

## Recognition of Prior Learning (RPL)

In a country like ours where a majority of the workforce has not received formal training, RPL is a very important associated function of the NSQF which helps individuals, who have gained learning informally, i.e. through life, work and voluntary activities to get this learning recognized. RPL assessment and certification is one such unique process that enables candidates to align their existing competencies with the NSQF and continue their formal education. RPL also helps them explore different options in skilling and upskilling to bridge the knowledge and skill gaps.

## University Industry Inter Linkage Centre (UILC)

In compliance of UGC notifications, UILC was established by FSDVS in 2015. The significance of university-industry interactions has become an important agenda of higher education on policy-making front at both national and international levels. FSDVS aims to have such collaborations with the industries for ensuring better skill development of candidates during the period of studies. FSDVS is actively working on fulfilling this need by creating and operating suitable collaborative arrangements with other Institutions and industries for promoting the University-Industry interactions in higher education.

## CSR Project of Employability Enhancement

World Education Mission, which is also the sponsoring body of the AUS has assigned many CSR projects funded by reputed organizations to FSDVS for skill training in various sectors. The training will enhance the employability prospectus of the youth of Arunachal Pradesh.

## Charter

Charter signifies for grant of privilege to formally recognize the grantee's existing competencies obtained formally or informally which includes academic or non-academic or work experience. The privileges of charter are assigned by the authority based on evaluation for conferring a certification equivalent to formal academic qualification to the grantee. The AUS is duly authorized to impart NSQF aligned Charter Certification for the purpose of enhancing employable skills amongst trainees. Charter can be earned at a pace, convenience and capability of the trainees. Being NSQF aligned certificate, charter can be equated with corresponding level of formal education and alternatively accepted as base qualification for enrolment in formal Programme offered by AUS.

## Deen Dayal Upadhyaya Grameen Kaushal Yojana

DDUGKY is the Scheme of Ministry of Rural Development (MoRD) as a part of the National Rural Livelihood Mission (NRLM), tasked with the dual objectives of adding diversity to the incomes of rural poor families and cater to the career aspirations of rural youth. It is focused on rural youth from poor families between 15 to 35 years. As a part of the Skill India campaign, it plays an instrumental role in supporting the social and economic Govt. initiated schemes like Make in India, Digital India, Smart Cities and Start-Up India, Stand-Up India campaigns. World Education Mission is the registered Project Implementation Agency for implementing DDUGKY scheme.

## Green Skill Development Programme (GSDP)

GSDP Training on 'Bamboo Crafts' and Propagation and Management of Bamboo is an initiative of Environmental Information System (ENVIS) under Ministry of Environment and Climate Change. The FSDVS is registered participant of ENVIS and conducted trainings related to Bamboo Crafts for the unemployed youth between 18-25 years of age. The outcomes of training are very encouraging; many of the trainees are still working with FSDVS for the development of Bamboo Product. The ENVIS and FSDVS has resolved to conduct regular trainings in various sectors for the benefit of unemployed youth under "Nai Manzil Programme" at NSQF Level 2.

“Navsrijan” is a Sanskrit word meaning novelty. Navsrijan – education above all initiative, is a social educational scheme of the Directorate of Continuing Education, Arunachal University of Studies. Navsrijan was devised by Late Prof. G.N. Pandey, the Founding Vice-Chancellor of the University. It is a unique initiative that generates an opportunity for school dropout students to re-enter mainstream education following the National Skill Qualification Framework of the Ministry of Human Resource Development, Govt. of India.

#### **Objectives of the Navsrijan Scheme is as follows:**

1. To facilitate dropout students to continue their education, by way of providing bridge courses, Pre-University Programme and Graduation etc.
2. To improve teaching facilities and increase the number of registration in Commerce and Science streams
3. To improve the level of education and the passing percentage of students.
4. To conduct active students/teachers interaction on regular basis.
5. To ensure that the successful students continue their higher education into the university or other institution of higher learning

The state of Arunachal Pradesh has been exponentially developing in the field of education with a vivid focus on expansion, equity, and excellence. Hence, Arunachal University of Studies has introduced the “Navsrijan Scheme” with an effort to reach unprivileged population living in remote areas of the State and to bring equity amongst the society.

The university is making determined efforts to ensure quality education across the state to provide education to the regular and discontinued youth belonging to all sections with an emphasis on lower socio-economic sections of the society. Arunachal Pradesh being a land of positive diversities equally faces severe challenges in terms of its topography, roads connectivity, electricity supply, internet connectivity, etc. As per the 2011 census, the overall literacy rate of the State is 65.38, were male: female literacy rate is 72.55%: 52:53%, which is far below the national average.

AUS believes that the bigger challenge that needs to be addressed is the students' dropout rates, which is up to 80% at secondary and senior secondary level. Hence, to do this, the Ministry of Minority Affairs, Government of India, has confirmed the enrolment of Nai Manzil Scheme under the Navsrijan Scheme of Directorate of Continuing Education of Arunachal University of Studies.

The Scheme ensure to get wider publicity and has been addressing challenges in terms of the failing academic standards of the state. AUS through the Navsrijan schemes advocates providing adequate learning resources through the delivery of highly qualified and competent faculty members, well-equipped classroom infrastructure and a holistic approach to the teaching pedagogy.

All India Council for Technical Education (AICTE) appoints Arunachal University of Studies as its National Employability Enhancement Mission (NEEM) Facilitator for the Northeast Region. The NEEM Scheme has instituted AUS as the registered NEEM facilitator for providing On Job Training (OJT)/practical training to less privileged youth by the active collaboration of Industry by preparing them to be capable enough to find subsequent employment post completion of the training tenure successfully. This pioneering venture is to not just provide OJT to students but also counter the issues concerning skilled labour scarcity in India. Under the NEEM scheme, every candidate shall be given a stipend for the willingness to study under the initiative.

Arunachal University of Studies as a NEEM facilitator is the nexus between the industry and student. We at AUS are thoroughly working towards holistically bridging the humongous gap between the availability of skilled resources and the rapidly changing industrial demands. Moreover, to do this, we are primarily focused on generating skill-based human resources by placing special emphasis on the On Job Training so that student gain a very dynamic and productive industry penetration.

Namsai alone caters to nearly 12 important districts of eastern Arunachal Pradesh which covers around 50% area and 55% population of the state. AUS is the only University available to cater to the higher education needs of the eastern part of the country. Despite the geographical distances, the people of the region are aware of the University and its programmes offered. Besides, ever since the university's establishment, a distinctive impart of quality education for the youth including marginalized sections of the society has been witnessed. Therefore AUS objective now looks forward to encouraging the underprivileged

youth (irrespective of gender, caste, religion, region, creed, and socio-economical) to grab apprenticeship based on respective preferences to improve their skills and get jobs in the sector.

AUS has always been the forefront On Job Training provider in the state of Arunachal Pradesh. Earlier, University-Industry Inter-Linkage Centre (UILC) was launched in the year 2014 under the Faculty of Skill Development and Vocational Studies following the University Grants Commission (UGC) communication vide reference D.O. No.F.1-14/2015 (CPP-II). The sole purpose of UILC was to offer practical and on the job training to enhance the industrial absorption of the youth of the state of Arunachal Pradesh.

Arunachal Pradesh due to its geographic conditions poses various challenges with respect to growth. Lack of industry, basic infrastructure, feasibility, connectivity etc. is just a few of the constraints that need to be tackled immediately. However, despite all the laybacks, Arunachal Pradesh has enormous potential in tourism, healthcare services, education/skill development, handloom & handicrafts, food processing etc. and AUS desperately wishes to change the overall employment pattern of the state

The University always had a vision in creating an ecosystem that would bring back the dignity of labour in all profession by creating sustainable sources of wage for every deserving youth in this country. AUS stands in pride in becoming part of the reputed NEEM scheme under the Government of India and looks forward to the training workforce in Arunachal Pradesh as per the requirements, ensuring that they get absorbed in the industry based on their skills.

AUS is recognized by Board of Practical Training (Eastern Region), Under Ministry of Education, Govt. of India, Department of Higher Education as one of its close partners in implementing NEP-2020, for conducting courses under Apprenticeship/ Internship embedded Degree Programme (AEDP).

In the wake of the coronavirus pandemic, Arunachal University of Studies took upon itself the moral responsibility of helping the nation in getting through the spread of COVID-2019. AUS offered the campus as the COVID Quarantine and Treatment Centre. Not just this entire staffs, faculty members and managerial body donated 2 days' worth of salaries to the PM Care Fund.

As the exceptional working style of the university lies in its unique philosophy - Educating with a difference, during these critical times of the 2020 Coronavirus pandemic, the University adopted the online education model as advocated by UGC catering to the needs of existing and the new enrolling students. The online training modules previously been introduced so that the students' academic year does not go wasted, and they receive the same learning modules from their home without compromising the quality of education and jeopardizing their health and safety. Furthermore, the University also implemented an online examination mechanism for its existing students and conducted the academic session with utmost sincerity and grace. Doing this, AUS emerged as a trendsetter by virtue. From the completion of the academic year of 2019-2020, by conducting multiple online activities, classes, examinations, and publication of results - AUS has been well ahead in terms of delivery as well.

Now that the offline classes have been commenced, the regular functioning of the campus ensures strict measures of social distancing in all Departments and Offices. All the Deans and HoDs are directed to ensure all precautionary measures for the safety of every individual on the campus.
