

IILM UNIVERSITY

Global | Inclusive | Responsible

IILM UNIVERSITY

The vision of IILM University is to promote education that offers a global perspective characterized by distinctive curriculum and co-curricular programs. IILM University engages with international partners to facilitate enriching learning experiences for students and advancement of knowledge. IILM University is an inclusive institution providing wider access to talented students. IILM University aims to give students knowledge, skills and values to become responsible and responsive leaders with moral and ethical values. This helps us in preparing our students for new-age careers and helping them emerge victorious despite complexities of the business world.

It is the rich legacy of over 28 years in higher education that makes IILM a brand to reckon with. International exposure, highly qualified and experienced faculty, globally-benchmarked curriculum and experiential learning give an academic rigor to IILM programs.

FREEDOM TO PURSUE YOUR PASSION

IILM University imbibes its educational philosophy in the concept of liberal education igniting the underlying unity of all knowledge. The University provides you with an academic framework and strong skill base to facilitate the further study and for becoming an educated and successful citizen of the 21st century. Its flexible structure is designed to inspire curiosity, frame opportunities, develop critical and problem solving thought processes and allows you to pursue your passion. Liberal education educates the whole person, and prepares students to excel in a range of careers and most importantly, live lives that are purposefully and meaningfully rich. It draws you towards two distinct goals: general education across the wide range of liberal arts courses and focuses education in a chosen specialization. With help from academic advisors and coaches, students will select from a range of courses to fulfil each element of the curriculum. Students may also choose to expand their academic experience beyond the classroom through choices like research and experiential learning.

MAJOR

Learning at IILM University goes beyond the classroom. The sessions are rigorous and highly interactive. From lectures and case studies to Simulations, Experiential Learning and Summer School options, innovative learning at IILM University ensures that students get the best experience within and beyond their classroom. Moreover, students are encouraged to undergo a Summer Internship, which helps provide an insight into the real world of their chosen careers and is imperative for students' overall development.

DISCOVER YOURSELF

IILM has always strived to empower its students by providing them value based education and necessary inputs to achieve excellence in the world of business. Mentoring is one of the effective means to achieve the above objective. Mentors can contribute towards shaping up of mentees' personality and towards enabling them to realize challenging roles. Both (the mentor and the mentee) have a role to play in the success of this initiative.

At IILM effective mentoring programme ensures that it fully understands the circumstances and specific needs of students and delivers a service which is geared to serving their best interests and supporting their individual progress. The purpose of mentoring program is to prepare students for successful careers in business by integrating academic learning with real world experiences and to become a model for workforce readiness, embraced by the community. IILM has created integration between mentoring and career center (another vertical of the development of student) to maximize the effort of successful career of students.

Monitoring is conducted on an on-going basis as a health check, allowing for early intervention when things go off-plan or to alter aspects of the programme in light of experience. Mentors and mentees should be primary contributors to the process of monitoring and to the final evaluation. IILM offers a unique student development initiative in the form of Personal Leadership Programme (PLP) and Career Development Programme (CDP).

PLP has been designed to help students develop self-knowledge and interpersonal skills by introducing a set of learning experiences throughout the study, that give opportunities to enhance self-awareness, awareness of others and clear actionable developmental pathways to promote effective working with others.

CDP is an exciting and unique aspect of the curriculum at IILM. It enables students to understand the importance of career planning, equips them with the right skill sets, improves employability, makes them understand about various industries, sectors, jobs and helps them network with professionals.

EXPERIENTIAL LEARNING

The curriculum combines experiential learning so that students are capable of turning concepts into effective decision making, initiating action from knowledge and converting ideas into change. The programs provide a holistic and hands-on experience to the students allowing them to reflect on concepts through internship programs, study abroad programs, service-learning projects, industry and NGO visits, to name a few. These allow our students a range of opportunities for personal and professional development.

CAREER CENTRE

Just as your educational experiences at IILM prepare you for success in employment, entrepreneurship or become a business leader, our world-class Career Centre equips you with the tools and training to proactively manage your career over a lifetime. Our experienced career coaches work with you in all aspects of your career and professional development. They will help you define your career vision, craft your résumé and cover letters, refine your interview skills and assess job offers. At IILM you can leverage a vast network of relationships with employers and alumni working across all industry sectors ranging from start-ups to Fortune 500 companies. The Career Centre helps you to carve your way to a successful career through:
